HTML, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS, Redux, Context API, React Query, GSAP, Axios, Fetch API, Git, GitHub, VS Code, Figma, WordPress, Laravel, Responsive Design, Web Performance Optimization, Cross-Browser Compatibility, RESTful API Integration, Lazy Loading, Code Splitting

Work Experience

Tafsol Technologies

Frontend Intern

Junior Frontend Developer

Junior Next-Js Developer

Karachi

June 2024 - Dec 2024

Dec 2024 - May 2025

June 2025 - Present

Tafsol delivers innovative digital solutions, driving global transformation across industries like FinTech, SaaS, and EdTech.

- Completed various front-end development tasks, improving project timelines and code quality
- Built reusable and optimized components using React and Next.js, improving codebase efficiency.
- Utilized HTML, CSS, JavaScript, Bootstrap, Laravel, and WordPress to enhance website functionality and user interface
- Added modules and enhanced functionality in live projects, leading to improved user engagement and satisfaction
- Built responsive websites that improved accessibility and user experience across different devices
- Developed dynamic, SEO-friendly web applications using Next.js, significantly enhancing page load performance and organic search visibility.
- Integrated REST APIs and managed state using Redux and Context API, improving data flow and app scalability.
- Refactored legacy React code into modular Next.js components, resulting in a 30% reduction in code complexity.
- Participated in QA and debugging processes using tools like Chrome DevTools, Postman, and browser testing frameworks.

APTECH Learning

IT Faculty

North Nazimabad, Karachi

May 2024 - June 2024

Aptech is a leading IT learning platform, offering certified courses in software, hardware, and networking across Pakistan.

- Created and delivered lesson plans that improved student engagement and learning outcomes
- Conducted lab sessions that provided hands-on experience, increasing students' practical skills

Education

IQRA University

BS-CS

July 2020 - July 2024

- Achievements: CGPA: 3.84

Govt. Degree College, Block "M"

Intermediate

Ahsan Public School

Matriculation

Saylani Mass & IT Training Programme

Web and Mobile App Dev

English Language Course

Projects

Coach Huddle

- Implemented full CRUD functionality for FAQ categories, users, and other key modules using Next.js
- Developed a complete Admin Dashboard with protected routes, modular UI components, and intuitive user flows.
- Integrated WebSockets for real-time notifications, including user logins, activity alerts, and system updates.
- Designed a responsive, clean interface using Bootstrap, ensuring accessibility and performance across all devices.
- Used `getServerSideProps` and API routes in Next.js for secure and server-side data fetching.

E-Commerce Storefront (Next.js + Stripe)

- Built a fully responsive online store with product listings, cart, and checkout flow.
- Integrated Redux for global state management to handle user cart, product filters, and auth states efficiently.
- Structured Redux with feature-based slices to ensure modularity and maintainability.
- Used `getStaticProps` and `getStaticPaths` for pre-rendering product pages.
- Ensured predictable state updates and seamless data flow across the app by following Redux best practices.

Mahiya Living

- Developed a Laravel-based interior design website with separate Admin and User dashboards for a seamless user experience.
- Implemented GSAP animations to enhance the website's visual appeal and interactivity
- Ensured a responsive and visually appealing UI that works seamlessly across devices.

Citizen Academy

- Developed a health website with roles for Admin, User, Business Admin, and Business Associate Admin.
- Developed the UI using Bootstrap for a responsive and intuitive layout
- Integrated Chart.js to display data-driven charts.
- Built dynamic components and managed state efficiently using React.js.
